The Game Zone :

- (1) This is Max, on his marvelous boat !
- (2) This is a fish ... This one will be drop in the water to catch other fish
- (3) This is a fish too ... It is in your basket. You can switch this fish with the one in your boat.
- (4) This is the sea. If the fishes go down, you loose !!
- (5) This is your score
- (6) And the number of the current level.

Game system :

To feed your cat, you must group at least 3 fishes, and one of them must be at the top of the sea. Examples :

Every 7 fish drop, the sea level go down. If you are too long to drop the fish, it drop by itself. (Yes a fish is slippy !!).

If a fish is at the bottom of the sea and the water level go down ... You loose !

Scoring and combo :

Each fish count for 1 point. Catching many type of fish with only one is called a Combo, and multiply your points.

Example :

Max drop a fish, and catch 3 other fish :  $3 * 1 \text{ point} = 3 \text{ points}$

The others fish go up, and align themselves, you catch another 3 fishes :  $3 * 1 \text{ point} * 2 \text{ (Combo)} = 6 \text{ points}$

Another 4 fishes align :  $4 * 1 \text{ points} * 3 \text{ (Combo)} = 12 \text{ points}$

Total : 21 points

What the level of difficulty change :

The difficulty level change what is the next fish you'll get.

Easy level : The next fish will be one of the fish in the 2 first line of the sea.

Normal Level : The next fish will be one of the fish in the 3 first line of the sea.

Hard Level : The next fish will be one of the fish in all the sea !!!! (Yes, that's why it's called hard level !).

Conclusion :

Now, you know what to do to feed this strange cat. No, don't buy food at the supermarket, PLAY THIS GAME !!
